Fiber dome closures and accessories
Focus ODC2

Application: Focus ODC2 is a mechanical cable sleeve for up to 1008 fibre optic splice connections.
It is used to connect fibre optic cables easily and quickly. The assembly does not require any special tools and is very simple.

- High quality thermoplastic material
- Waterproof BASE and DOME (IP68, IEC 529)
- closure: dome-to-base clamp with O-ring and silicone seal
- Modular entry system for cables and pipes (mechanical or heat shrink)
- Easy access to the connection area
- Opening with guided locking
- tray for loop insertion
- Variable module holder for individual fitting with splice cassette modules

Construction and technical data:

protection class: IP68

The products and information presented here are for technical calculation only. They are subject to technical progress and in no way represent the ability of shipment. Outer diameters are approximately.
